

TABLE OF CONTENTS

1. Introduction - What Is Aniridia: Epidemiology, Clinical Features and Genetic Implications

Giuseppe Damante and Angela Valentina D'Elia
p. 1-8

2. Optical Coherence Tomography Imaging in Patients with PAX6 Mutations

Mervyn G. Thomas and Irene Gottlob
p. 9-15

3. Aniridic Glaucoma: Diagnosis and Treatment

Giorgio Marchini, Marco Toscani, and Gabriele Vizzari
p. 17-26

4. Management of Glaucoma in Congenital Aniridia

Peter A. Netland
p. 27-37

5. Clinical and Surgical Management of Cataract in Congenital Aniridia

Dominique Brémond-Gignac
p. 39-44

6. The Ocular Surface in Aniridia

Paolo Rama, Maurizia Viganò, and Karl Anders Knutsson
p. 45-52

7. Aniridic Keratopathy: Conservative Approaches

José Santiago López García and Isabel García Lozano
p. 53-62

8. Lamellar and Penetrating Keratoplasty in Congenital Aniridia

Sandra Planella, María Fideliz de la Paz, and Juan Alvarez de Toledo
p. 63-74

9. Boston Kpro Type I as a Viable Alternative to Visual Rehabilitation in Aniridia Patients: Advances and Limitations

Samantha Williamson, Kimberly Hsu, and Jose de la Cruz
p. 75-83

10. Cell Therapy for Regeneration of the Corneal Epithelium in Aniridic Patients

Julie T. Daniels, S.J. Tuft, and A.J. Shortt
p. 85-94

11. Strategies for Success in Limbal Allograft Transplantation for Aniridia

Omar Hassan and Ali R. Djalilian
p. 95-104

12. The Paediatric Patient: Identifying Congenital Aniridia as Soon as Possible

Elena Piozzil and Davide Allegrini
p. 105-118

13. Aniridia: Early Diagnosis: The Key Roles of Neonatologists, Paediatricians and Paediatric Ophthalmologists

Kristina Tornqvist
p. 119-122

14. Aniridia Guides and Aniridia-Syndrome (PAX6-Syndrome): Do's and Dont's in Clinical Care

Implementation of Supra-Regional "Aniridia Guides" Can Delay Progressive Vision Loss and Improve Comprehensive and Individualized Medical Care

Barbara Käsmann-Kellner, Arne Viestenz, and Berthold Seitz
p. 123-154

15. Assessing the Visual Function in Congenital Aniridia and Following the Child During Daily Life

Luisa Pinello
p. 155-160

16. Children with Aniridia and Healthcare Systems: From Needs Assessment to a Comprehensive Program of Care and Assistance

M. Mazzucato, S. Manea, C. Minichiello, M. Bua, M. De Lorenzi, and P. Facchin
p. 161-166

17. European/International Guidelines on Aniridia: The Patients' Point of View

Barbara Poli, Rosa Sánchez de Vega, and Corrado Teofili
p. 167-171

18. What to Do When Diagnosed with Aniridia: The Role of Patients' Associations - Bringing Together Support, Education, and Research to Find the Aniridia Solution

Jill A. Nerby
p. 173-181

19. Future Avenues of Research in Aniridia

Tor Paaske Utheim
p. 183-189
